

Making rotas work for you

SAFER | SIMPLER | SMARTER

RotaPal™

an OVERVIEW

RotaPal is a unique cloud-based rota management and communication platform, built with the expert knowledge of current frontline doctors, it has been designed specifically for the healthcare service.

Quite simply, it is an easy-to-use platform for doctors to manage their rotas. No more emails threads, no more spreadsheets and no more delays.

Developed in line with wider service requirements, RotaPal encompasses the needs of multiple stakeholders within the hospital ecosystem; switchboard services, human resources; medical secretaries; and service managers.

RotaPal's smart, simple to use, user friendly design enables individuals of all IT abilities to navigate it's features.

user DESIGNED

We know the complexities and challenges of working in the ever increasing fast paced nature of the healthcare industry. We want to empower our users to take back control.

We have designed a range of product features definitively based on our users' needs, enabling the entire organisation's ecosystem to avail of RotaPal's benefits.

Senior doctors, rota leads, medical secretaries and operational managers will all notice extensive improvements in how they are able to prepare, distribute and generally manager rotas.

By facilitating better communication, reducing processing time and increasing work-life balance, we ultimately believe RotaPal will significantly improve the organisation's ability to deliver better patient care.

- ✓ save **TIME**
- ✓ improve **CARE**
- ✓ regain **CONTROL**

"RotaPal has **transformed** our rota management"
"Gone are the days of paper rotas stuck to a wall"
"A **huge improvement** over the paper system."
"Can't imagine not using RotaPal—it's **fantastic**."
"From a **patient safety** perspective, it's a lot better."

the BENEFITS

Increase accountability

Instant dissemination of updates to multiple stakeholders

Reduce admin time

Save time preparing, distributing and managing changes to rotas.

Accessible anytime, anywhere

Available on desktop, smartphone, iOS and Android.

Safer patient care

Direct access to the colleagues needed most in an emergency.

Save on locum expenditure

Flag gaps earlier, promote internal fulfilment, reduce administration

Work-life balance

Quickly and effortlessly manage your rota alongside your colleagues and social life.

Plan for the future

Input leave requirements in advance, reduce the need to swap later.

Auditable

All records uniformly assembled, no more searching email threads.

Better connected

Link rotas across specialties, accessing colleagues in different departments.

RotaPal™ for DOCTORS

ON CALL View

Instantly access who you are on-call with and contact them at the touch of a button.

RotaBuilder

Create on-call or shift rotas and roll-out or repeat methodically in just a matter of minutes.

RotaCalendar

With key identifier icons, effortlessly view when, what type of shift and who you are working with.

Activity Log

Access an accountable record of all swaps, transfers and changes within your rota.

Leave Management

Request and plan leave months in advance, keeping colleagues up-to-date, helping the design of more effective rotas.

Swap Management

Send and receive reciprocal or transfer swaps. Accept or decline, and track any activity in real-time.

RotaPal™ for HOSPITALS

Admin Access

Access an overview of the hospital at all times. Track, audit and access the most up-to-date rotas.

Switchboard

Switchboard smart-search offers quick and efficient access to any desired rota within the organisation.

HR View

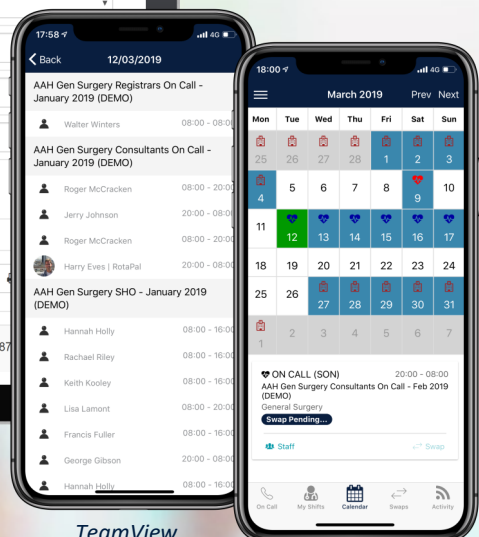

Create, view and distribute rotas. Promote and track the status of all shifts, keeping a record of swaps, transfers and rota gaps.

A&E Vision

Direct and instant access to the details of those working across the hospital.

Switchboard View

TeamView

RotaCalendar

the **Ecosystem**

RotaPal™ is not just applicable to doctors, but the whole ecosystem. We recommend that every relevant department and level of seniority is involved in the roll-out. We'll work with you every step of the way to make the process as smooth as possible.
